Wroclove ♥

# The most beautiful city in Poland

*Interculturality – German and French  
living together in Poland ♥*

Throughout our time in Poland we discovered polish culture and faced the many differences with our own countries as well as the things that bring us close to each other

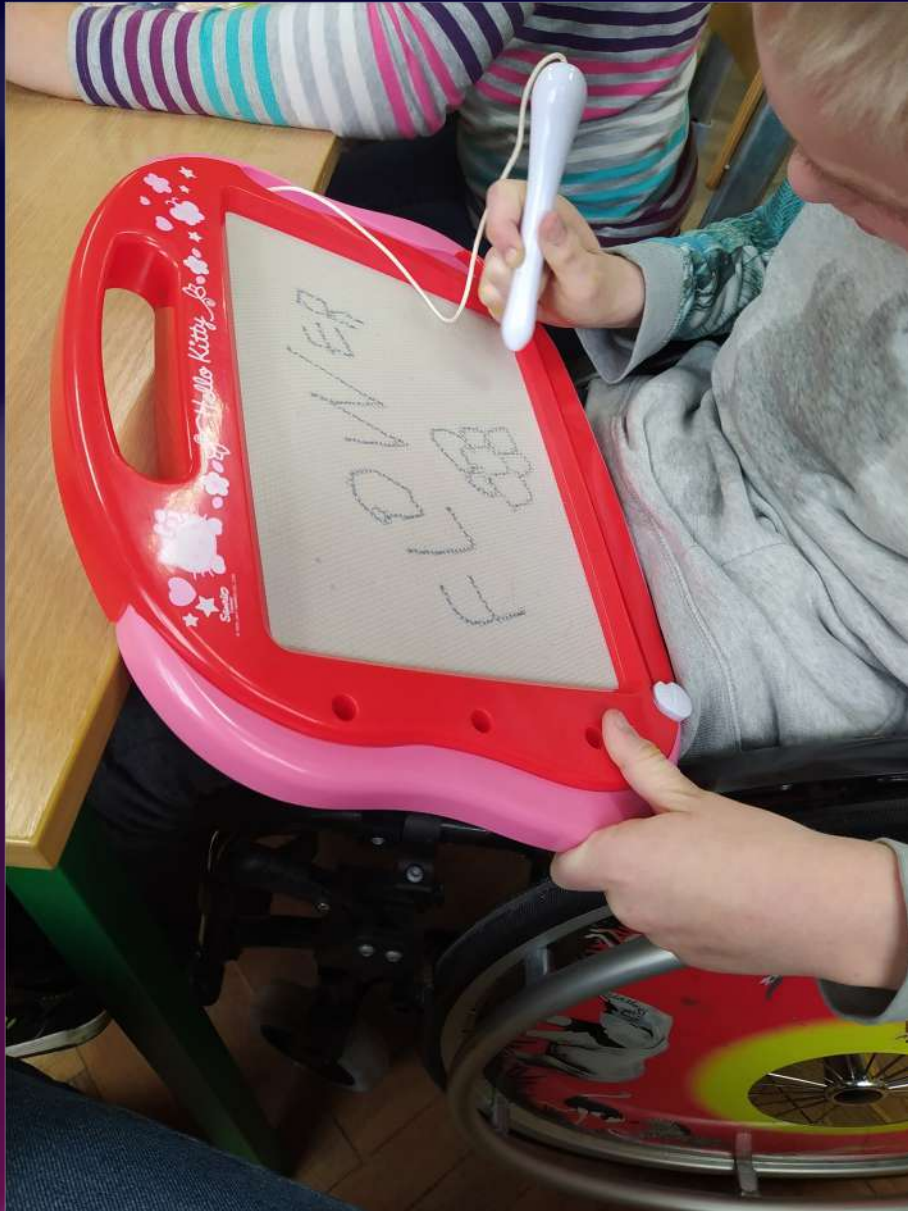

We met people from all over the world and shared so much together.

PARK  
ŚLĄSKI

A woman with long dark hair, wearing a teal jacket and black pants, stands in a snowy field next to a large heart-shaped sign. The sign is made of a dark material with a bright green neon outline. To the right of the heart is a large sign with the text "PARK ŚLĄSKI" in a bold, blocky font, also with a bright green neon outline. The sign is mounted on a wooden frame. The background shows a snowy landscape with trees and a building in the distance under a cloudy sky.

## *Christmas in Poland*

We experienced an atypical Christmas, we didn't go back home. We stayed together and celebrated this time in Wrocław.

We ate pizza under the rain it was a very nice time ^^

On the 26<sup>th</sup> december 2020 we were invited to Pani Barbara's house and we enjoyed a more typical Christmas with a lot of tasty food!

# *Politics*

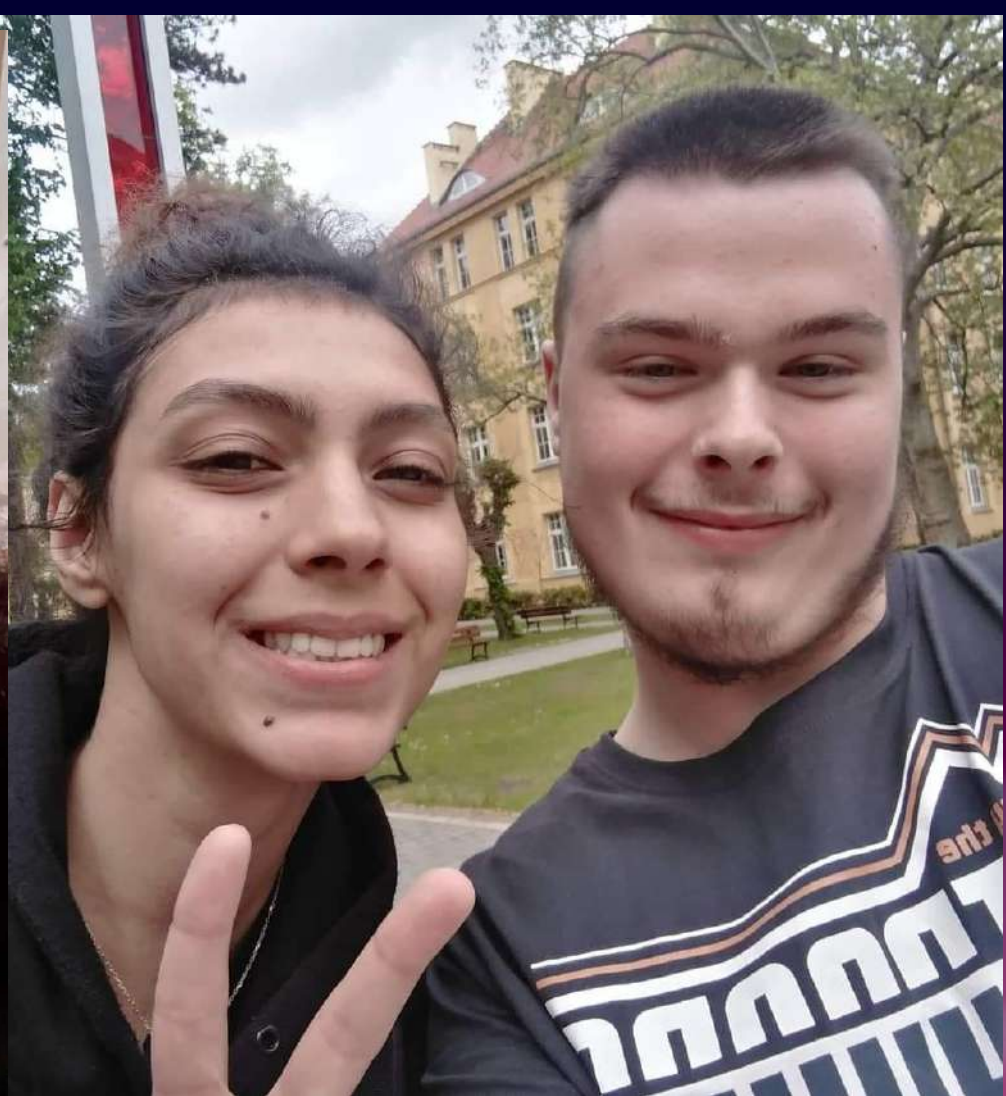

Living in Poland and talking with polish people made us know more about politics in Poland.

We took part in some protests to show support and solidarity to women fighting for their rights.

*Memorable encounters* ♥

We are very thankful for this  
experience in the school in Wroclaw.

We are leaving with lots of good  
memories and hope to come back !

Dziękuję bardzo!
