

# Christmas with volunteers in FECDiE schools

## Secondary schools

### Advent project

In the Advent week, the volunteers prepared a very interesting project called “Take a good direction”. Each Advent week, the students had to draw a colored arrow with a task written on it that had to be done within the next week. Interesting tasks included, among others, singing a carol, dancing in the middle of the class with a friend, passing positive words to someone, giving up long sitting in front of the computer during the evening and instead talking to a friend, etc. We all had fun and the time before Christmas just seemed to be passing faster 😊
