

27.10.21: Helios Cinema – Diuna movie.

At the end of our first month in Wrocław I took part in a school trip to Helios Cinema that is close to our school. Children had been excited even a day before our trip, so I expected spending a nice day in the city. We left school early morning and walked to the cinema. There was only one class of students. But I was helpful because I assisted Janek who is in a wheelchair. A while before the movie , we had eaten ice cream and did some window shopping. Finally, the movie started. Sitting in the first row and being in the cinema the only visitors we enjoyed the movie which was about the world existed ten thousand years before. It was really great time. Thank you all from 2 LO grade for the trip.
