Horse stable Borowa Oleśnicka (SPS) - wycieczka do Stadniny Koni

Today, two of the volunteers were able to go with some classes from the Primary Special School to visit a horse stable in Borowa Oleśnicka.

They showed us how to take care of horses, what they eat, how they sleep, where and how to clean them... everything you need to know about horses!

The children were really excited when they saw the animals. Some of the kids were scared at the beginning but when they saw that the horses were kind to us, they were not afraid anymore. And they even touch them!

Making new friends!

After all the explanations, we went to the horse arena, and we rode a horse! Almost all of us, some of the children didn't feel like it, but the volunteers did! After exciting experience with horses, we set up bonfire and fried sausages. Fully satisfied, with a lot of experience and full stomachs we had taken a way back at train station and got back to Wrocław by train.
