

#### 14.10.21: Cinema film “Paczka” (whole school)

Today - The Teacher's Day, so we went to the cinema with the whole school! It was so nice to go together with all the students. Some of them went on foot, some of us went by tram... but in the end we all met at Magnolia Park.

The volunteers went with the teenagers to watch “PACZKA”, a Czech film about the life of a boy who plays ice hockey, and also some of his “teenage problems”. The students really enjoyed this time at the cinema and liked the film a lot. After the movie, some of the classes stayed in the shopping centre to have lunch and do some window shopping. For some children the movie was so controversial that they talked about it when they came back to school. It was a great base for discussion about bullying, adolescence, or family relationships.
