

## The visit of Centrum Historii Zajezdnia

On April Fool's Day I took part in a trip to the museum called Centrum Historii Zajezdnia which is the rebuilt depo into the exhibition room. There are only temporary exhibitions. At the time of our visit the exhibition about Wrocław history between years 1945 – 2016 took place. So the part of the kids of our school, a few teachers and me took a tour into the closest history of our city. The exhibition was interactive with a lot of sounds, pictures and real exhibits. Our guide talked about interesting facts and students could compare their parents and grandparents childhood with their own experience. Despite the cold April weather with a little snow all of us enjoyed nice time in the Zajezdnia.
