

Prom 2022

On February 19, 2022 we had the pleasure and honor to participate in an exceptional event for our students. This year's high school graduates, that is students graduating from general secondary school and technical school of economics, according to tradition, 100 days before their final exams, they met at a ceremonial ball. Me and Milan were invited to the prom as accompanying persons to Krzysztof and Karolina.

It was a great time. There was a place for ceremonial speeches , thanks for teachers and parents, a special artistic program and lots of delicious food. The fun was great, music was excellent, we danced a lot and had some competitions. We have chosen a King and a prom Queen. The honor of winning the royal crown fell to Krzysztof, and Ola became the queen of the ball.

It was a fantastic experience for Milan and me as we remembered our time when we graduated from high school and had fun at the prom. Those were beautiful days ...
