

## Trip to the Zoo with the Polish German School

On the **20<sup>th</sup> of May** we went on a trip to the Zoo. This time, we had the chance to see how the Zoo works from the inside.

The kids learned how to feed the animals that live in water, and we even gave some lettuce to a turtle!

We spent there only 3 hours but we were very tired after it because we walked a lot around the Zoo. It was very interesting and we learned new things! 😊
