

Christmas project

This week, we (Filipa and Eva) organised a Christmas project with our classes from the German-Polish and the Special primary schools. We made Christmas cards for the seniors in the nursing home in our Foundation.

Eva made the cards with the grade one of the PNSP and Filipa with the children at Swietlica in the SPS. At home, we added some nice

notes in the cards.

On Friday, we then delivered our cards with the children to the people in the nursing home. They were very happy to see the kids and to get the cards.

It was a very nice project with a great outcome.

Here is a video about the project:
